

**CHECK YOUR FUSES**

Use 15 ampere fuses in regular household circuits, and don't put pennies behind blown fuses; keep wiring in good repair and have all work done by an expert electrician. Fuses protect your appliances, your house, your family itself from damage and possible fire when wires are overloaded or a short circuit occurs.

**SMOKERS**

Be wise! Don't smoke in bed. Smoking in bed may result in a call for the undertaker. Fumes from burning cloth may overcome or asphyxiate you before fire reaches you. Keep matches in safe containers and away from young children. Place plenty of ash trays about your home for smokers.

**MAYOR SHERFEY NAMED TO CITY PLANNING BODY**

Mayor J. Hugh Sherfeey, Jr. was named to the City Planning Commission by the City Council Tuesday night, succeeding John E. McCall, former City Attorney. The state planning laws require that part of the planners be city officials, and McCall's vacancy could only be filled by a member of the council since City Attorney Otto B. Willett and City Engineer G. M. Jain already are ex-officio members.

D. B. LEWIS, Vendee  
BROADWAY STATE BANK  
3264 SO. BROADWAY  
LOS ANGELES, CALIF.  
April 10, 1947.

**Movie Makers To Use Ball Park For Location**

The City Council Tuesday night approved the request of 20th Century-Fox Film Corporation to use the Torrance baseball park as a location for their new picture "Off to Buffalo," during the month of June. The movie makers have agreed to pay the city a sum of \$25 per day of shooting and to paint the existing stands. They said they will do four or five days of actual shooting in the park, and also asked for one of the regularly scheduled ball games on a Sunday afternoon with the crowd in evidence. They stated that since the setting is to be New Jersey, they will have to put in various trees (temporary) to cover up the palms and oil derricks visible.

**Vets Drawing Compensation Number 1 In 9**  
One out of every nine of the estimated 735,000 war veterans residing in the nine Southern California and two Nevada counties which comprise the Los Angeles Veterans Administration regional area are drawing government pension or compensation for disabilities, according to figures released by the VA today.

The total number of disability checks issued by the local VA regional office during March was 84,223. Of this number a few over 25,000 went to World War I veterans and the remainder, or approximately 60,000 to veterans of World War II. These figures show 20 per cent of all World War I and 10 per cent of World War II veterans in the area as recipients of disability checks.

**CHECK PIPES, CHIMNEYS**  
Clean soot out of chimneys and smokepipes. Then check for cracks and holes, and have chimneys repaired—where mortar or bricks are loose—and replace pipes if necessary. Dirty, defective chimneys are a leading cause of fire.

**Volunteers On Fire Dept. In Politics, Claim**

(Continued from Page 1-A)

is attempting to replace with inexperienced recruits are Eugene Held and Ernest Lopp. The board claims that they are too old to take the Civil Service examination, since each is more than 32 years of age. It is said that the Civil Service Board has given civil service status to other men over age and that Held had been promised such status.

Friends of the two firemen are urging that they be blotted into the Civil Service system for past services rendered. Since the department now is short of men, removing the two seasoned firemen and replacing them with inexperienced men from the civil service list will weaken the department at a time when the hazardous fire season is approaching. The Torrance and the Civil Service Board agreed to confer on Monday at 8:30 p. m. regarding Held and Lopp. The volunteer firemen's protest has not reached the official attention of the Council, it was said.

**RETURN TO OAKLAND**

Mr. and Mrs. H. E. Appenzeller and daughter returned today to their home in Oakland following several days visit here. While in Torrance they concluded the sale of their Torrance holdings. Appenzeller recently assumed his duties as district sales manager for Sherwin-Williams Paint company.

**Wage Contracts Deciding Factor In Steel Price**

Benjamin F. Fairless, president of United States Steel Corporation, made the following statement: "Continued reports that reductions in steel prices are about to be announced by United States Steel Corporation call for some comment on our part so that customers and others interested may be advised of the actual situation. "Collective bargaining negotiations are now in progress between our steel making subsidiaries and the United Steelworkers of America (CIO) looking toward the negotiation of new labor contracts to replace those expiring on April 30, 1947. One of the demands of the Union is for a substantial wage increase. Other demands of the Union, if granted, would add materially to our already heavy costs. Until these demands are disposed of in the pending negotiations, no real consideration can be given by us to the adequacy or inadequacy of our present steel prices."

**LARGE HEN-FRUIT**  
Two eggs the size of watermelons are among a collection recently donated to the University of California Museum of Vertebrate Zoology.

**APRIL 25 & 26 ?**

**REDONDO AGREES TO COUNTY SMOG CONTROL BILL**

An agreement for Air Pollution Control Enforcement with the City of Redondo Beach was approved by the Board of Supervisors at its Tuesday meeting, according to Raymond V. Darby, chairman of the Board of Supervisors. Darby said that Redondo Beach was the 22nd city to date which had signed agreements with the County of Los Angeles. It is believed, concluded Darby, that eventually all cities will sign agreements and thus make enforcement of smog control uniform throughout the county.

**Townsend Club No. 1**

The Torrance Townsend club No. 1, will have a birthday night instead of pot luck this Friday evening at the Men's Bible Class building on Cravens ave., 7:30, according to Ethelyn Vorhees, club secretary. Refreshments will be served.
